Broadcast application of native warm season grasses (NWSG) and wildflowers

Spring
2004

SNS entrance area

Mixed success: sparse NWSG and wildflowers

July 2004

SNS entrance area

Mixed grass and shrubs established, but some
invasive plants present

September 2008

SNS entrance area

September 2010

- Site mowed and sprayed to treat invasive non-native species
- Over seeded with warm season grasses and native wildflowers
